Carrying out

Hello, we are the class 1'A of the comprehensive Gerardo Dottori of Torgiano school. Today we show you a short illustrative video of the constellation of Orion according to Sumerian, Arab, Chinese and Alpine people.

We students were divided into 4 groups, and the professors provided us with the material and information that we used to create dialogues and make this video. To do this we used **stop motion studios** app.

Good vision!!

Bye bye!!!!
